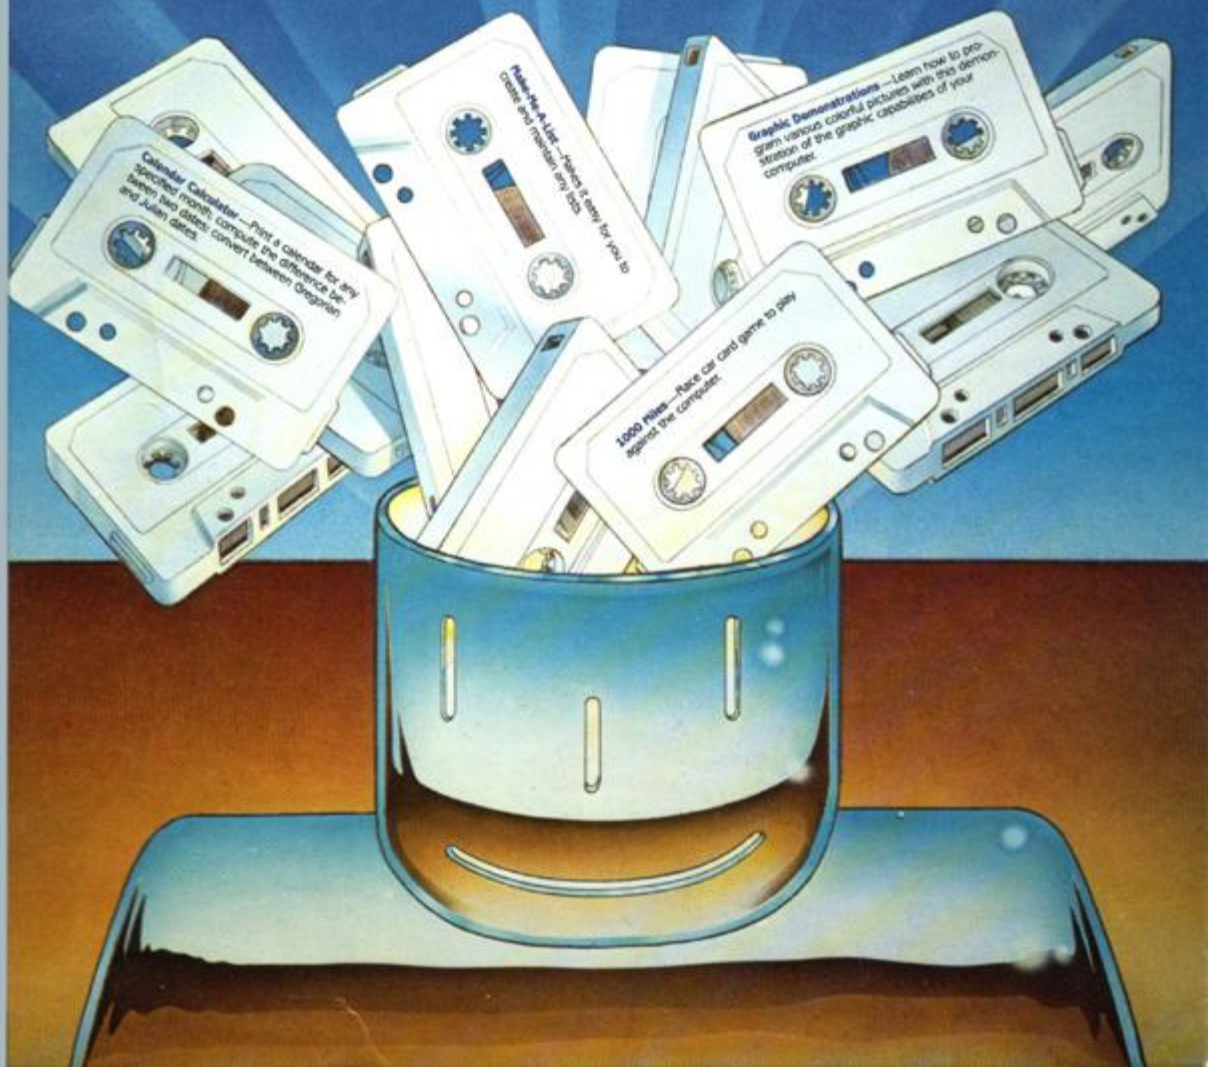
13 Informative Programs For The Beginner



commodore

Experiences in Software

• Five Graphic Demonstrations • Two Productivity Programs • Three Programming Utilities • Two Games • A Demonstration Of Several Sounds

A super software package for the computer beginner! Become familiar with your Commodore 16 or Plus/4 with 13 diverse programs. Topics, ranging from simple graphic and sound demonstrations to useful,productive and recreation programs, help to start you off right. A fantastic way to enter into the wonderful world of computers.

Included in the collection are five graphic demonstration programs, two productivity programs, three programming utilities, two games, and a demonstration of several sounds.

Put to use such helpful and convenient programs as:

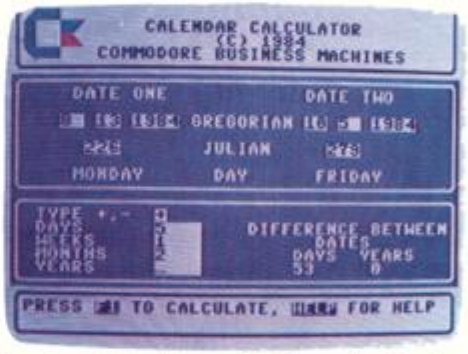
Graphic Demonstrations—Learn how to program various colorful pictures with this demonstration of the graphic capabilities of your computer.

1000 Miles—Race car card game to play against the computer.

Required Hardware: Commodore 16 or Plus/4, Commodore Datassette™, Commodore printer optional

Make-Me-A-List—Makes it easy for you to create and maintain any lists.

BASIC Variable Dump—Prints the contents of your BASIC variables in any BASIC program. An excellent aid for the beginning programmer.



Calendar Calculator—Print a calendar for any specified month; compute the difference between two dates; convert between Gregorian and Julian dates.

Disk To Tape/Tape To Disk—A useful utility that allows you to easily transfer programs between tape and disk.

Sound Demonstration—A demonstration of several sounds that help to give you an idea of the C16's sound capabilities and how to program them.

A Text Screen Dump—Prints on a printer what is displayed on the monitor screen.

Free Etch—Graphics package that turns your monitor into an artist's canvas for you to draw on.
